

IAP (International Assurance Providers) New Deal

Introduction

We are a professional IT audit and advisory firm. Our mission is to support organizations with the management of their IT Risks. Nowadays every organization depends on IT and the Internet and therefore has to deal with IT risks.

IT Risks can be system unavailability, data theft or leakage, hackers, ransomware, corruption of data. IT Risks can easily lead to business risks such as loss of customers, financial loss, reputational damage, compliancy risks and bankruptcy. These risks should be managed.

Location and team

IAP New Deal has registered offices in the Netherlands, Suriname and Aruba. We offer our services worldwide.

Our international IAP New Deal team consists of certified IT auditors, consultants and managers specializing in IT project management, IT auditing and information security.

Services

IAP New Deal services consist of IT audits & consulting, project management, IT security services, Software Code review, vulnerability & penetration testing (“ethical hacking”).

Our services are focused on IT risk management solutions for your organization. These solutions are based on industry best practices combined with our experience. In particular we are specialized in:

- ISO27001 (Information security) internal audits
- Assurance reports (ISAE3402 and SOC2)
- General IT audits
- Cyber risk analysis
- Cyber risk awareness training
- Vulnerability scanning (see also our flyer)
- Penetration testing
- Information security reviews
- IT Compliancy
- Cloud migrations
- Selection of IT staff
- IT audit & risk training
